Native RDP
Connect from your local machine (Windows)
Switch local machine OS
1 Configure prerequisites for Native RDP
Azure needs to configure some features in order to connect to the VM.
Prerequisites configured
Port 3389 access
Port 3389 on this virtual machine is accessible from the local machine IP (223.187.122.176). Learn about Just In Time configuration
Change the port for connecting to this virtual machine on the Connect page of the virtual machine.
Public IP address
A public IP address is required to connect via this connection method.
Configured
2 Open Remote Desktop Connection (on Windows)
Open Remote Desktop Connection. Or change your local machine operating system to view more instructions. Learn more
3 Download and open the RDP file
Download and open the RDP file to connect to the virtual machine.
